	I really enjoyed doing the final project, building my own website. I enjoyed working on group projects.
	A lot of things on the schedule changed, but he did a great job of informing everyone and was very
	understanding if we needed more time for something.
	I liked that we turned our papers in online, I liked our discussions in class too.
	Really interesting class that definitely helped to encourage and develop critical thinking!
	I really enjoyed our discussions. I always got a lot out of them and loved learning different views on topics. The reading was sometimes a little far out I felt, but maybe I was just innocently oblivious to why it was relevant to our discussion.

	Great material. Definitely a class I would recommend to others.

GEHL	He lectures very well. He made it very clear as to what was expected of us.
GEHL	Great discussions, and he was always available for instruction or opinions.
GEHL	Rob G was a really nice teacher he was always helpful and helped me with all my essays.
	Professor Gehl was candid, friendly, and conducted class with a more open atmosphere which I felt
CELII	encouraged more open and dynamic discussion (rather than just presented lectures). I also appreciated
GEHL	the opportunities the class had to adjust the syllabus somewhat based on interest in topics relating to the course subject! :)
GEHL	He always let us voice our opinions and never made any of us feel stupid. He was funny and provided a
GERL	welcoming environment that made me feel welcome to share my opinions.

GEHL	Lessons were well taught and thoughtful. Professor Gehl helps you to think deeply and "out of the box."
