| | | Question: List two things about this instructor that were effective for your learning, or make constructive suggestions for improvement. |
| GEHL | | Very knowledgeable and helpful |
| GEHL | | I found it effective when you did coding with us in class. Maybe for quizzes give a slight review of what will be covered on it. |
| GEHL | | Instructor was honest, if he didn't know something he didn't have an ego, he showed us how to figure it out. One thing that may help beginners is an explanation of what coding means, "using commands to make pages appear how you desire" type explanation. Some new people seemed a bit lost |
| GEHL | | Always available for advice and to answer questions, as well as the work days provided an atmosphere that was not stressful when working on assignments |
| GEHL | | Rob challenged us with the assignments but also provided plenty of assistance so that everyone could succeed. |
| GEHL | | Troubleshooted with as many students as he could and listened and was understanding to the problem |
| GEHL | | Very helpful!! Really knows what he is talking about. And he's funny. |
| GEHL | | The instructor it was very personal and available As well as willing to work with students |
| GEHL | | hands on learning, hands on teaching. |
