| | Question: Comments on course effectiveness |
| | Code clinics and course structure was really helpful in creating the end product |
| | I enjoyed the pace of this class! Great for an intro into web design. |
| | I gained a lot of valuable skills by taking this course. Over the course of the whole semester, we worked with a client (classmate) to design an entire website for them. Every week we learned new skills, and everything built on previous knowledge really well. Doing practice assignments every week and participating in code clinics helped to make this class successful. |
| | I learned so much! |
| | Robert did a great job at integrating the user and design process. He also helped us learn by submersing us into the content and helped us implement it. |
| | The class was very hands on with the material. The instructor was very helpful in explaining the material and how it worked. |
| | Question: Instructor Comments |
| GEHL | Overall a great professor. He did rush through code clinics that often left me confused, but the open labs helped with confusion. Also, did not grade assignments in a timely manner. |
| GEHL | Robert is so patient and actually takes the time to help students individually. I went from not knowing what css or html were to now being able to creat e and design a website! |
| GEHL | This instructor did a great job of helping beginners with web design. He walked us through every step and provided us with all the resources to make our own websites. He was able to adapt his instruction to each student and their project, which allowed us to have a lot of freedom and creativity in the process. Overall, he did a great job of helping us develop applicable skills. |
| GEHL | Robert is a great professor and really assisted people like me who didn't know anything about web design. |
| GEHL | He was willing to slow down with the material so that everyone was on the same page. He made something that generally could be considered boring and made it entertaining. |
| GEHL | Robert was always in class and willing to help, his lab sessions were extremely helpful in applying our knowledge. |
